A few words by RJM (presentation in Ostróda) about the contents of the book:

Well, I have the luck to be able to compose practically in all genres. Thus, in my book there are orthodox 2 and 3-movers, but also moremoves because, in orthodox, my preference goes today to strategical moremoves.

The book also contains helpmates and self and reflexmates...

And a lot of fairies with the Circe condition, or conditions derived from Circe... but also with less usual conditions, like Imitator... and this, sometimes combined with fairy pieces.

The book also shows that I like retros, especially fairy retros... even sometimes with mathematical contents.

As you can see, there are various things...  
The book has 325 pages. It is written in English. It contains 251 problems and approximately 1001 promotions!
